

Appliances & Consumer Electronics

Valued Quality. Delivered.

Build compliance with the leading experts in global testing and certification.

Intertek's quick turnarounds on safety testing, breadth of services, and leadership in product performance and benchmark testing are just a few of the reasons why the Appliance and Consumer Electronics industries rely on us for global testing, inspection and certification.

Our broad scope and expansive testing capabilities provide a full range of certification labels and schemes to certify all around compliance for appliances, housewares and consumer electronics. With multiple accreditations from all over the world, Intertek delivers the engineering resources to streamline EMC compliance and energy efficiency.

For safety certifications, we offer our premiere ETL Listed Mark. With over 80,000 product listings, ETL is recognized as the fastest growing product certification mark in North America. We offer shorter queue times, immediate response to your inquiries, and testing expertise across a global network of laboratories.

Intertek Offers Significant Scope

As a partner with broad global capabilities and delivery, Intertek provides complete testing, certification and inspection services for a variety of consumer electronics and home appliances.

Valued Quality. Delivered.

Energy Efficiency with Intertek

With a global network of Energy Efficiency Test Labs, Intertek is one of the largest third-party energy efficiency testing organizations in the world, helping manufacturers meet energy efficiency requirements for global markets. As an EPA-Recognized Certification Body for all gas and electrical ENERGY STAR® product categories, Intertek provides 24-hour certification on ENERGY STAR services, once testing is completed, and is recognized as the preferred energy efficiency testing and certification partner of government agencies, industry associations, and manufacturers.

Intertek

Intertek provides the testing solutions that manufacturers need most

- Electrical Safety Testing for Appliances and Consumer Electronics
- EMC Testing for Appliances and Consumer Electronics
- Energy Storage and Battery Testing
- Energy Efficiency Testing (North America, Europe, and Asia Pacific)
- Global Research & Certification

Performance Testing with Intertek builds your competitive edge

Manufacturer goals and market objectives dictate which performance testing services are best suited for your appliance or consumer electronic device. Intertek offers the following test options to enhance your product's market value:

- Accelerated Stress Testing (AST)
- Environmental and Durability Testing
- Failure Analysis and Materials Testing
- Usability Assessment Program
- Performance Testing with Intertek's Quality and Performance Mark (QPM)
- Benchmark and Comparison Testing
- ISTA Packaging Testing
- Trade Association Testing
